

KODAK PROFESSIONAL Inkjet Photo Paper

- ▶ Instant-dry paper technology
- ▶ Excellent printed surface uniformity
- ▶ Resin-coated, professional grade photo-base paper
- ▶ KODAK PROFESSIONAL Paper backprint
- ▶ Cut sheets and roll sizes available in glossy (F) and lustre (E) surface finishes
- ▶ Custom color profiles available for optimal print quality (**visit www.kodak.com/go/proinkjet**)

Impressive detail, expressive palette, extensive portfolio of print size options

KODAK PROFESSIONAL Inkjet Photo Paper—a high-quality, instant-dry paper that is universally compatible with dye- and pigment-based inkjet printers. Professionals and photo enthusiasts alike can enjoy the benefits of this photo-quality inkjet paper. Our Inkjet Photo Paper features a true photographic base with high-quality pulp and state-of-the-art paper composition that presents the look and feel of classic photographic paper.

With a range of downloadable custom ICC color profiles developed for popular inkjet printers, Inkjet Photo Paper delivers—

- bright, saturated color
- excellent flesh tone reproduction
- very sharp detail
- excellent neutral scale tone reproduction
- overall outstanding image quality

All this comes with a professional touch—our popular lustre and glossy surfaces. Printed surfaces are extremely consistent and even, with no trace of gloss or bronzing. They can be directly compared to the surfaces of our silver-halide papers.

KODAK PROFESSIONAL Inkjet Photo Paper

Our professional high-quality paper is available in popular cut-sheet and roll sizes. Whether you choose 25.4 cm (10 in.), 40.6 cm (16 in.), 91 cm (36 in.) or a 112 cm (44 in.) by 30 m (100 ft.) long roll, KODAK PROFESSIONAL Inkjet Photo Paper offers you increased productivity and efficiency in your printing workflow. As an in-studio printing solution, long rolls provide you the ability to offer rapid delivery of enlargements, quick reprints, proofs and final last-minute additions to your customer's order.

Technical Specifications

- Basis weight 255 g/m²
- Thickness 9 mil
- ISO Brightness 94
- Opacity 96%
- CIE Whiteness 115
- Core size 7.6 cm (3 in.) (rolls only)
- Custom color profiles available at www.kodak.com/go/proinkjet

Feature	Benefit
Lustre/Glossy finish	Lustre and glossy surfaces are very similar to silver-halide E lustre and F glossy surface print surfaces on KODAK PROFESSIONAL ENDURA Media. These options allow you to produce prints in the studio that have the surface look and feel of silver-halide prints you get from labs.
Excellent surface uniformity	Produces prints with uniform surface texture, without the bronzing effects seen with other manufacturers' instant-dry papers.
White whites	Very clean highlights and good tone scale performance to enhance your print quality.
ICC Color Profiles	Optimizes color reproduction and shadow and highlight details. Download the color profiles available for professional inkjet printers to optimize your results. Printer list is updated as new printers come to market.
Instant dry	Works on all inkjet printers; dry-to-the-touch after printing, making it easier to handle the prints directly from the printer.
Excellent image stability in typical home display and storage	When printed with state-of-the-art pigmented inks, prints made on KODAK PROFESSIONAL Inkjet Photo Paper are projected to last in excess of 100 years, even when displayed without additional protection, such as behind glass.
KODAK PROFESSIONAL backprint	Show your customers the backprint they have trusted for over 100 years.

186 1269	Lustre	112 cm x 30 m (44 in. x 100 ft)

Printing

Your printer came with profiles that are specific to the manufacturer's paper, but all papers are made slightly (or dramatically) different. By using the profiles we made specifically for your printer (along with the correct Printer Driver settings), you'll get the best possible prints on KODAK PROFESSIONAL Inkjet Photo Paper. If you're looking for color predictability and consistency, download the profile for your printer and operating system, and get the results you expect – time after time. Because new profiles are continuously added to our web site, be sure to visit www.kodak.com/go/proinkjet if your printer is not listed below.
